November 12, 1980

In light of the above, I recommend that we decide precisely what we want to do with respect to undisclosed wastes discovered at the plant site and to document in detail our reasons for such action. I then recommend that we draft a notification in accordance with Section 15.02(A) above and send it to Stepan with a request to approve the proposed action as soon as possible.

This notification, being the first, is extremely important and may very well set the tone for dealing with sensitive problems in the future.

Please keep me advised.
